A one pound can of each powder was taken, the total leavening power or volume in cach can calculated, the result being as indicated. This practical test for worth by Prof. Schedier only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any feir minded person of these facts.

land, 20 acres of which is in cultivation, and has never falled to produce over an average crop in the most adverse seasons, and in good se sons has produced a bale of cotton, and from 30 to 35 bushels of corn to the acre. The remaining 40 acres are finely situated, and well adapted to the raising of fruits and vegetables of all kinds. There is a creek of never-failing water running through the place, and enough wood can be marketed from the place to nearly pay for it. Any one wanting a small place, convenient to market, cannot do better than to procure this one. For particulars, apply to J. M. Gray, at Singer Machine office, or write to N. H. BOYD,
